Package containing:

- * Re-Application Number 10/600,028 of
Dr. Harold Douglas Foster
Protocol for AIDS prevention and treatment by Nutritional Methods
- * Payment check for the Patent re-application

Dear Patricia Faison-Ball,

As the deadline approaches, the above package is still held up at US Customs. On February 6, 2007 I have sent you a fax, followed up by a fax from Canada Post notification of delay on February 7, 2007; with the below message:

The above package has been sent to you on January 23, 2007 per Xpress post. However, as per attached notification of Canada Post, the information package has been severely delayed in the US Customs; and is in the US Government's care custody and control under our best determination and investigation for delivery to your office address as specified in your letter to me dated December 14th, 2006. Please advise if there is any further action required immediately to secure my Patent re-application under your file number 10/600,028. Thank you.

Again, I kindly request an extension of our re-application under 37 CFR 1.136, which is due on February 14, 2007.

Yours sincerely,

Dr. Harold D. Foster
